Dear Parent/Carer

For information and action of parents

It has been brought to my attention that there has been an increased incidence of head lice in school. Very often with an outbreak of head lice families will find hair infected more than once, particularly if all families do not carry out regular checks. Head lice are not fussy, they like blonde, dark, straight, curly and clean hair. Children's heads inevitably get close together during work and play and head lice are quick movers.

Don't panic!

The most effective courses of action recommended are;

- To tie back long hair
- Wet combing after using conditioner
- Using a narrow-toothed comb
- Shampoos and lotions from the chemist (not always effective as some lice are resistant)
- Use of eucalyptus, tea-tree and lavender essential oils

The most important thing is for ALL families to check their child's hair.

Thank you for your co-operation.

Yours sincerely

Jane Gill
